Blond Lager *Refreshing. Smooth. Light-bodied. Slightly fruity.*

In 1841, Viennese Brewmaster Anton Dreher presented his brewing style using bottom-fermenting yeast and became a pioneer of all Lager beers.

Wheat Beer *Refreshing. Smooth. Medium-bodied. Hints of banana.*

Also known as Weissbier or Weizenbier, this golden wheat beer has been brewed in Bavaria since the 16th century. Using malted wheat and special strains of top-fermenting yeast.

India Pale Ale *Aromatic hops. Malty. Bitter.*

Brewed since the late 1700s, IPA contains a substantial amount of hops that acted as a natural preservative of the beer quality during the long journey to the English troops in India.

House Porter *Subtle malt and chocolate flavours. Hops aroma.*

Inspired by historical British porters. Originally named "Entire" and said to be a blend of three different beers that became very popular with street and market porters. Our house porter is also concocted by blending India Pale Ale for its hoppy aroma and Stout for its roasted aftertaste.

Stout *Intense roasted and malty flavours.*

Historically evolved out of "Stout Porter". Inspired by Irish Stout crafted using authentic brewing principles, this dark brew shows coffee and cacao flavors.
